EVERY AMERICAN NEEDS THE STANDARD
HISTORY OF HIS OWN COUNTRY.

THE NEW YORK TRIBUNE

Has secured the entire first edition of the new great Standard
History of the United States, and by forming subscribers into
clubs sells single copies for one-third less than the regular
price, and upon easy terms, and readers of the Intelligencer are
invited to take advantage of this offer. After years of
preparation

Scribner's History OF THE United States

Is complete, 3,500 pages, 1,600 illustrations, costing alone more
than \$100,000. It is the only large work (notwithstanding
the many excellent small histories) which is full, brought
down to date, superbly illustrated, meeting all the demands
of intelligent American families. The plan of the History was
laid by William Cullen Bryant, the text written by Sydney
Howard Gay, Noah Brooks, Edward Everett Hale, Horace
E. Scudder, Rosevelt Johnson, and many other specialists.

PRICES ARE ADVANCING.

A large part of the entire first edition which the Tribune secured has
been subscribed for, but all who join a Tribune Club now (no club fee)
can have the set delivered for \$2.00 down and \$2.00 a month for nine
months—about 7 cents a day. Readers have ordered the leather binding,
usually, it costs \$1.00 a month more, but it will last a lifetime.
NO RISK.—It is impossible to describe this book in a limited space.
We are so confident of its value we offer to send it upon approval. Re-
turn the books if not satisfactory. Fill out the following blank and
mail AT ONCE.

REMEMBER—This set of books is for sale nowhere else. The
Tribune has the entire edition. Order quickly or the edition may be
exhausted.

THE TRIBUNE, NEW YORK.
I hereby subscribe through Tribune Club to SCRIBNER'S POP-
ULAR HISTORY OF THE UNITED STATES, complete in five
volumes. I agree to pay \$2.00 on receipt of books and to remit to
THE TRIBUNE ASSOCIATION, Tribune Building, New York,
\$2.00 monthly for nine months.
Price in Half Leather, \$1.00 A MONTH MORE.

The hydrophobia relief fund, being
raised under the auspices of the Intelli-
gencer, passed the \$700 mark last eve-
ning when Mrs. Isiah Warren called at
the Intelligencer office and handed in a
number of subscriptions, which are given
in the tabulated statement of subscrip-
tions above.

Mrs. Warren is taking a deep interest
in the movement, through her knowl-
edge of the condition of the Schell girl,
who lives in North Wheeling. Mrs. War-
ren says the girl is in a nervous state
and that she should be sent to the Pas-
teur Institute for treatment with as little
delay as possible. The girl's parents, it
seems, were ignorant of the movement
to send "suspects" away for treatment,
or they would have applied in the child's
behalf earlier.

Mrs. Warren is making an effort to
secure free railroad transportation for
the girl, together with an attendant, and
if her effort is successful, the amount of
money still needed is only \$40. Without
this free transportation only \$62 is need-
ed, and it is hoped that there will be a
speedy response that will enable the
fourth "suspect" to take the treatment.

ABOUT PEOPLE

Strangers in the City and Wheeling Polka
Abroad.

John McNally, an old soldier, of
Wheeling, was in the city yesterday.

Mrs. Lester, of Canton, is visiting
Miss Georgia Van Fossen, of South
Chapline street.

Miss Maggie McCammon, of West
Alexander, is the guest of Miss Nannie
Montgomery, of Eleventh street.

Eddie Mack, of the South Side, ac-
cidentally cut his hand in Sistersville
where he was working, and blood poi-
soning setting in, he is in the city get-
ting his injury attended to.

The condition of Master Mechanic, W.
W. Layman, of the Ohio River Railroad
was reported yesterday as improved.
Mr. Layman is now at his home in Park-
ersburg, being removed there from
Haskins' hospital a few days ago.

An Old Building.

The old brick hotel on Bridge street,
Bridgeport, a part of which is being
taken down to make room for a new
structure, was built in 1817, and was the
second brick house built in Belmont
county. When first erected there were
three steps up to the first floor. In dig-
ging the earth away to get down to the
foundation, a fill is shown to be made
of about ten feet.

THERE is more Catarrh in this sec-
tion of the country than all other dis-
eases put together, and until the last
few years was supposed to be incurable.
For a great many years doctors pro-
claimed it a local disease, and pre-
scribed local remedies, and by con-
stantly failing to cure with local treat-
ment, pronounced it incurable. Science
has proven catarrh to be a constitu-
tional disease, and therefore a constitu-
tional treatment. Hall's Catarrh
Cure, manufactured by F. J. Cheney
Co., Toledo, Ohio, is the only constitu-
tional cure on the market. It is taken
internally in doses from ten drops to a
teaspoonful. It acts directly on the
blood and mucous surfaces of the sys-
tem. They offer one hundred dollars
for any case it fails to cure. Send for
circulars and testimonials. Address,

SCHOOL MELANGE.

After a rest of two weeks, the Ped-
agogue again makes his best bow, and
writes a few thoughts as they have oc-
curred to him in the meantime.
He has been noting carefully the dif-
ferent opinions expressed on the "High
School" question, and as far as he can
summarize them. A consensus of the
same would be about as follows, viz.:
We have good schools as they are at
present i. e. as far as they go, but they
do not go far enough. A great many
people would like to have their children
receive a higher education than what
they now receive in our grammar schools,
but they are not able to send them away
from home. If we had a high school,
say these persons, and there are many
of them, we could give our children, at
least two years more schooling, and keep
them at home at the same time. Others
think that it would be better to centralize
our grammar schools, even if it did not
add a new study to the course. Still oth-
ers, and as far as known the great ma-
jority say that if our schools are to re-
main as they are as far as the course of
study is concerned, then why not let
them remain just as they have been for
years. We have good schools say they,
and the people are satisfied with them,
then why disturb them? A great many
who say this though are in favor of a
high school, if it is made a high school
worthy of the name.

The Pedagogue has heard all these
opinions advanced and has heard many
arguments for and against the high
school, but not one of them has shaken
his opinion in the matter that the great-
est need of our city to-day educationally
is a high school, whose course of study
will extend two years beyond that of our
grammar schools as they now are. It
may not be best to add there two years of
study to the course just now, but he has
confidence in the good sense of the people
of Wheeling, and believes that when
they see the great advantages resulting
from a good high school they will all
without a single exception be in favor of
it. If the opponents of a high school will
examine our school law they will find
that the intention of the law is to have a
regular system of high schools, in which
any and all our boys and girls if so in-
clined can prepare themselves to enter
the regular classes of our university, and
the expectation of those who formed the
law will not be met until we have suffi-
cient of these preparatory schools. Our
high school should be put such a school,
as contemplated by the law. But enough
on this subject. The university extension
course is now absorbing the minds of
nearly all our teachers and a great many
of the other professions. Rev. Davis is
meeting with much encouragement in
the matter. The central organization
was effected on Thursday night, and he
expects to form two other classes—one
for the Island, and the other for the
South Side. He is sanguine enough to
think that there will be at least 300 in
the three classes. This certainly shows
a desire on the part of our young people
for self-improvement.

A very good performance was given by
the second year pupils of Ritchie gram-
mar school yesterday afternoon at the
regular meeting of the Longfellow Liter-
ary Society. These performances are be-
coming better month after month. The
members of the society are divided into
four divisions, corresponding to the dif-
ferent years of the grammar course, and
each class vies with the other to excel.
This gives a good performance every Fri-
day afternoon.

The city superintendent of schools has
decided to prepare questions for final ex-
amination in the following branches for
the classes in the grammar schools:

First year—Physiology and Literature.
Second year—Algebra, Physics and
Grammar.

Juniors—Rhetoric, Civil Government
and Arithmetic.
The examinations will be given at
the close of the school year, and the pu-
pils, standing a creditable examination,
will be permitted to pass up higher; if not,
they will have the trouble of "doing their
first works" over again, or rather of do-
ing what they ought to have done at first.
